NEWSLETTER

NEWSLETTER NO. 65 MARCH 96.

EDITORIAL.

Welcome to this months edition of the Southampton UFO Groups Newsletter, and I am sorry that I am a little late with this edition, but this past month has been somewhat of a busy month to say the least. First of all, I must apologise for the article that appeared in the last edition of the newsletter concerning the crash of a UFO seen by an Egyptian officer. It has been pointed out to me by certain people, that I have put my foot in it as far as the authenticity of the article. If you are any good at Anagrams, and re-arrange the officers name, then you will see what I mean (Here's a clue : A LOAD OF C**P (The two missing letters are 'R' and 'A') ... see what I mean...ED).

The last edition also saw the return of the Wheatear and it generated a letter from Mr. Rob Irving which will appear in the next edition in the newsletter. I replied to Mr. Irving and pointed out, that 'I am **NOT** the Wheatear' and that the article was based on an article that appeared in the Ceareologist penned by George Wingfield. Any other material that appeared in the article were the Wheatear's personal views and that those expressed are not necessarily those of the editor. As I said, I will publish Mr Irvings letter in the newsletter as a right of reply and I am sorry that the article has upset Mr Irving.

What follows is a listing of all the Television/Radio items that I recorded from the Tv in 1995 and was left over from the February edition of the Newsletter. If you want details of how to obtain a copy of any of the material listed, then please drop me a line.

- 1995 : Future Quest : Search For E.T.

 30.12.95 : Warrington Guardian : Riddle of Pensioner's Cold Encounter with UFO.

PRESS/TV/RADIO MATTERS OVER THE PAST MONTH 15.2.96 - 15.3.96.

PRESS.

13.2.96 : Daily Mail : Flying Sauce (Letter).

The problem with the theory that UFOs are time travellers from the future (Letters) is that they might frighten my parents to death, in which case, where would I be ?

Inhabitants from the nearest planets which may support intelligent life would take about 30 years to reach us at the speed of light. If anything could travel at that speed, a 60-year round trip for a quick look at us would be hardly worthwhile.

15.2.96 : North Wales Weekly News : Files are Opened on Unexplained :

This article concerned an interview with a dear friend of mine Mrs Margaret Fry of the Welsh Federation UFO Group. The article looks at the recent report of the sighting that occurred on 6.1.95 between a British Airways Boeing 737 and a 'wedge-shaped' craft 4,000ft over Manchester. There is a look at local reports/sightings and as Margaret wrote to tell me that the article mis-quoted her. The article said that 'Despite her many encounters with UFOs, Mrs Fry, who was brought up in the Himalayas, doesn't believe we will ever meet an 'alien being'. Margaret did **Not** say 'I did not believe we will ever meet aliens'. Margaret runs a victim support group with Alan Hilton, professional hypnotist since 1982, and she certainly does believe people are being abducted. Certainly more than Philip Mantle's 40 cases have come to her over the years.

As she said in the letter, she has wishes to maintain her reputation and the work that she is involved in and certainly, this article does somewhat dent her reputation especially when dealing with abduction cases. So please bear in mind, do not always believe what you read in the press (And we are all guilty of this ... Including yours truly folks.... !).

23.2.96 : The Sun : UFO Helpline.

A Help-line for stressed-out people who say they have been kidnapped by aliens has been set up in Zurich, Switzerland. Ten people have phoned in.

3.3.96 : News of the World - Flying Saucer Scare At Balmoral.

RAF jets chased a UFO from The Queen's Balmoral home.

Two Harrier GR7 jump-jets were scrambled on Wednesday after locals reported seeing a mystery light over the Scottish castle.

One witness claimed the RAF planes appeared to be locked in a dogfight with the UFO. The light appeared just after 10pm and was seen clearly eight miles away in Ballater.

One local said: 'It seemed to appear from no where right over Balmoral. Within minutes two jets had zoomed in and appeared to be chasing it. They seemed to climb very quickly, almost standing on end. It was almost as if they were in some sort of dogfight with the light'.

Another revealed : 'it was like something out of a science fiction film. The sky was clear and suddenly a circular light was over Balmoral. It didn't seem to come from any particular direction, it was just there all of a sudden.

'Next thing all hell broke loose as the jets roared in. They were shooting around in circles.

'Suddenly the light vanished and after circling the castle the planes flew in the direction from which they came'.

Security around the Royal Family's Highland holiday home has been tightened since the IRA cease-fire ended.

And a strict exclusion zone bans all aircraft from the skies above the 55,000 acre Balmoral estate on Deeside. None of the Royal Family was there when the scare happened.

An RAF spokesman said : 'There were two aircraft in the area. They could have been on some kind of exercise. Pilots are not going to report such things as UFO's to anyone and I've been unable to get anything out of them'.

Balmoral lies on a line running from the Lothian's on which strange lights - thought to be flying saucers by UFO investigators - have been reported.

7.3.96 : North Wales Weekly News : 'UFO' was Light of Love.

This article concerns a UFO sighting by villagers at Penmachmo in North Wales. The object was filmed by a Mr Dilywn Evans and the following day telephoned the police and two police officers arrived to look at the footage. The following night, the object was seen again and a police officer was there to see it.

Following another look at the footage, the police have since told Mr Evans that in fact it was only a planet. It is thought that in fact it was the planet Venus that is at this time of the year particularly close to the Earth and is ten times brighter than any other star or planet in the heavens.

9.3.96 : Daily Mail : So is there somebody there, after all ?

This 2 page article is really a book review based on the books by : Nick Pope - Open Skies, Closed Minds Due to be published in June at £14.99, and the new book by Timothy Good, Beyond Top Secret : The World-wide UFO Security Threat, due to be published on April 26 at £16.99. The article concerns itself with the sighting in Manchester on the 6th January 1995, and the growing number of sightings involving the Flying Triangles that seem to be plaguing some parts of the country and Europe. A very informative article and well worth a read.

TV:

25.2.96 : CH4 Wired World. Roswell Footage.

yet another look at the Roswell Autopsy and as with everything else that has been said and shown about the subject, nothing new. Mr Santilli was never available for an interview, and at the end, Santilli and Mr Mantle (Bufora) were shown leaving Mr Santilli's offices along with who I think, was Philip Mantles wife ?

26.2.96 : Good Morning - Dr Chris French & Stanton Friedman.

This was not solely on the subject of UFO's, in fact Stanton did his usual bit of showing off the documents he received under the Freedom Of Information Act and the lack of text in the documents. Other subjects covered were the Loch Ness Monster, Were Wolves. An item that really was a bit on the boring side for me.

27.2.96 : X-Files. Repeat of the last episode from the 2nd series.

A welcome back to the 3rd series of the X-Files and it was well worth the wait. We were left on the edge of our seats, waiting to see if Mulder was dead or alive, who was setting Scully up, what were those bodies doing in the desert. Well, its like this.... (No sorry folks, I can't do it, I can't spill the beans. You will have to wait until the 3rd series is shown on BBC 1 sometime next year.... !)

5.3.96 : X-Files. (Part 2).

See part 1.

11.3.96 : Live Tv : Weird Night : Roy Lake.

My good friend Roy appeared on Tv yet again, and as ever, did a great job and came over really well. There was a live phone in, and viewers phoned in with their sightings and promised to contact Roy about their experiences. There were a couple of good sightings/experiences and I look forward hopefully, to reading about them in Roy's great magazine.

12.3.96 : X-Files. (Part 3).

As above, part three of this very, edge of the seat program, see part 1.

11.3.96 : Live Tv : Nation Weird : Magic & Mysteries (Repeat).
(Featured Ron West & The Triangle sightings in Essex).

11.3.96 : Horizon (BBC 2) : The Search for ET.

This was a very interesting program that really didn't reveal much more than we already know, but saying this, it was enjoyable and brought you up to date with the search for E.T and his/her friends out there.

RADIO :

21.2.96 : The Jamesons Show - Featured a member of Quest International.

I missed this item, and I wonder if anyone out there happened to record the program and the interview ?

6.3.96 : Live Radio - Breakfast with Bates - Features Reg Presley.

Not much to listen to as Reg is his usual self concerning crop circles and the autopsy footage. There was another person featured on the phone in, but to be honest I would not mention it as he was, well, a bit O.T.T... To say the least.

9.3.96 : Live Radio : Phone In.

My friend only managed to record a minute or two, and missed the rest of the program, and it featured a radio phone in, but that is all I know about the program, did anyone else manage to record the item.

MAGAZINE REVIEWS.

1. UFO Magazine (Quest International). Mar/Apr 1996.

as ever, Quest International magazine is glossy, packed with news, views and information and is well worth subscribing to. This edition contains articles looking at Underground bases and Tunnels, The Sea Shadow - America's Underwater Dream, Mid-Air UFO encounter over Manchester Airport, An interview with Whitley Strieber, Desert Encounters, UFO's and the National Security Agency and The Chupacabaas Phenomena. I consider this magazine a must for researchers, if not only to keep you up to date in Ufology, but as a source of reference material. One thing that I feel that Quest must consider, is going monthly. We are seeing competition with the monthly magazine Encounters, and I have heard that Fotean Times is now colour and is monthly, Quest now have a bit of competition, and I feel that they should seriously consider a monthly magazine, otherwise, they may find it a bit of a struggle to keep the bi-monthly going, but that is my own personal view...Ed.

2. Coverup. No 1 1996.

This is one of those regional magazines, that is well worth our support and is produced by Mr David Coleman of the Lothian Unexplained Phenomena Research Group. This is the first edition, and is 3 page, double-sided newsletter, that looks at livestock mutilations in Scotland and Ireland (I wonder if this will make the aliens leave our cattle alone ! and that they have taken Beef off their school meals... ED !!!), UFOs caught on video near Bonnybridge, Scotland, and there is an article that looks at Scotland's Stonehenge. A very good read, and as I type this, the 2nd edition has just fallen onto my door mat and will be reviewed next month.

3. N.E.U.F.O.R.M. No 2 1996.

Again, another good regional magazine, that should be supported by all Ufologists and this edition is of no exception.

In this edition, there is a look at common sense warnings when dealing with a UFO, What is the strange 'Aurora' in our skies, Witness account, a look at Quests conference in Leeds, and more. The only thing that I found a bit of a pain, was the layout in columns. Instead of reading from column to column, the article jumped from one column, to another, with an item in between. It would be better if you read each article from column to column and not jumping column. But, other than that it is a good read.

4. Skysearch Magazine. Winter 95/96.

As ever Larry's magazine is packed from cover to cover with great news, articles and information. This edition looks at UFO experience at Star Hill, Warminster 25.7.1970, Experimental Flight, Sightings in the area, UFOs : The Geomantic Connection, The Grey Zone, Readers Letters and a lot more. This is a must for investigators, and from our recent meeting in Southampton, members were impressed with its layout and contents.

5. IUFOFRA Newsletter. Vol 2, No 2, Mar/Apr 96.

In this edition, there is a look at Explosions over Ireland, Flying saucers, Ghosts keeping spirits up, Ufology versus science fiction and an astro report and update with the night sky on the 26th April, showing the possible sighting of comets.

6. Encounters, Issue 6, April 1996.

This is well worth purchasing each month as it is the only magazine available on the shelves monthly and is packed with Ufology material. This edition is of no exception and there is an interview with Bob Dean, a look at space shifters, The famous black triangle, amber ball sighted in Leeds, Derrel Sims - The Alien Hunter, Strange lights over Lancashire and a lot more. Buy it, and read.....

Encounters Magazine - Available from good newsagents.

UFO Magazine - Available from good newsagents.

Skysearch Magazine - PO Box 2507, Saltdean, Brighton, BN2 8NE. 01273 300805

PORTSMOUTH LECTURE 3.3.96.

I was asked by Bob Schindler of the Southern Paranormal Investigations group to give talk on the UFO subject to his members. There were around 30 people at the meeting and I talked about Ufology from around 1945 to present day. In the slide presentation, I was also able to show video footage and I ended the presentation with a 30 minute video. The meeting went well, and those there appeared to enjoy the presentation.

Forthcoming Events and Lectures.

1st April 1996 - I will be giving a lecture in Bournemouth (Details from editor).

14th April 1996 - UFO 96 - Crowborough, Sussex (Details available from Editor)

20th April 1996 - SPI 1 day conference in Portsmouth (I have a few tickets available for this event if you are interested).

22nd June 1996 - Cricklade Theatre, Andover (Details to follow).

29th September 1996 - Contact International 1 day Conference.

The First Meeting of The Southampton UFO Group - 27.3.96.

The meeting went ahead as planned and I am pleased to say that 15 people attended the meeting, and we had a great evening. I spoke for a few minutes about the group and one or two bits of news that I had to pass on that I had recently received. We then sat down to watch a 45 minutes video that brought us up to date on one or two things happening in the UFO community. We ended the evening with a general exchange of information and we ended the evening at around 10.30pm. It was a good evening and please remember, the next meeting is on the **21st MAY 1996** at the same location, **'Chatter Box', Victoria Road, Netley..... 7.30pm - 10pm. £1.00 entry fee** (Tea/Coffee/biscuits in the interval : 75 p).... See you there... !

UFO badges for Sale.

I have around 8 metal badges for sale on behalf of my good friend Margaret Fry and are available at £3.00 each including postage from the editorial address.

Tickets For the SPI Conference - 20th April 1996.

I have 9 tickets for the above event, that I have been asked to pass on to any of my readers of the newsletter. The cost is £7.50 each & are available from the editorial address.

In the next edition of the newsletter, there will be a reply to the article that appeared in the previous edition newsletter by the 'Wheatear' from Mr Rob Irving and also my reply to his letter.

"We are not alone." - "The Astronomers are wrong." - "The scientists are wrong" - "They are here, but we cannot see them because they hide. They hide... in plain sight"

June 22nd, 1996

ROBERT MORNING SKY

Presents

Evidences of Alien Presence

Robert Morning Sky was taught by the extraterrestrial Star Elder about continued alien visitations & activities on earth for many centuries.

Robert Morning Sky

Hopi Apache Native American

Traditional "Fancy" Dancer

Author of five books

Founder of Terra Project

Favourite Speaker at Conventions & Expos

Robert Morning Sky Deciphered the Alien Glyphs on the metal wreckage fragment seen on the "ALIEN AUTOPSY" Tapes

His talk may include the following:

- | | | | |
|-----------------|----------------------|-------------------|-----------------------------|
| # Abductions | # Hopi Prophecy | # Hale-Bopp Comet | # Engineered Diseases |
